MAIN TOOLS

Java script

react.js

Vite

Node.js

Python3

DEV-OPS TOOLS

Docker

Ansible - AWX

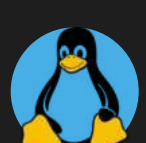

GitHub Actions

Terraform

Nginx

Linux - Ubuntu

COLLABORATION TOOLS

Git

GitHub

Atlassian Jira, Confluence & Bitbucket

Microsoft 365

slack

OTHER TOOLS

Tailwind css

Vitest

MySQL & Postgresql - Prisma

Mongo DB

Figma

EXPERIENCE

2025 – Present

Atlassian Solution Engineer & Senior Frontend Developer

POLYGRAN GMBH

- Ownership and administration of Atlassian stack (Jira, Confluence, Bitbucket) with deep understanding of workflows, permissions, automation and integrations.
- Design and maintenance of custom workflows, fields, ScriptRunner logic and integrations with external systems.
- Infrastructure and environment automation using Ansible, reducing manual operations and improving system reliability.
- Development of a multi-tenant enterprise dashboard for a banking client and its partners.
- Design and implementation of a complete invoicing platform:
 - invoice generation and processing,
 - financial and user activity analytics,
 - reporting and data visualization.
- Close collaboration with business stakeholders, translating complex processes into scalable technical solutions.

2024 - Present

CEO & Software Engineer

JINN LIMITED LLC

- Strategic and operational leadership as CEO, including:
 - definition and execution of company strategy and operational roadmap,
 - management of daily operations and cross-functional processes,
 - coordination with partners, affiliates and external service providers,
 - oversight of product delivery, timelines and business performance.
- Development of large-scale TypeScript-based SPA applications with a strong focus on performance, scalability and long-term maintainability.
- End-to-end ownership of production infrastructure, including:
 - Nginx configuration,
 - PM2 process orchestration,
 - DNS setup and environment configuration.
- Design and implementation of CI/CD pipelines using GitHub Actions for automated build and deployment.
- Independent end-to-end development of an affiliate platform, including:
 - backend APIs,
 - frontend dashboards,
 - integrations with payment, email and notification services.

EXPERIENCE

04/2024 - 08/2024

Head of Department

TUI GROUP SCHWEIZ - LOCATION TUNISIA

- Responsible for leading and optimizing departmental processes, team management, and developing innovative solutions to enhance customer satisfaction and efficiency.
